OVERVIEW

Our trust and estates attorneys work with each client to design an estate plan that is right for the client’s unique personal and financial circumstances. That may include a will, one or more trusts, a living will, a general power of attorney, a healthcare power of attorney, special needs planning for a loved one with disabilities, succession planning for family farms and other business interests, and more. We also guide clients through the probate process and administration of the estate. Whatever your situation, we can help you obtain the peace of mind that comes with proper planning.
