## OVERVIEW

Our business attorneys represent both lenders and borrowers in securing financing for a variety of business transactions and expansion efforts. Our broad experience includes the representation of local and national businesses with respect to the financing of large asset and stock acquisitions as well as the development of additional manufacturing facilities and power plants. We regularly render opinions for lenders and borrowers with respect to financing arrangements. We are also well-equipped to guide both borrowers and lenders through the complicated issues that arise when dealing with the financing of businesses in highly-regulated industries.
